PROFILE INFO

Passionate Software Engineering student focused on frontend and web development. Proficient in React, Tailwind CSS, TypeScript, HTML, CSS, and JavaScript, with basic knowledge of backend development using Node.js and MySQL. Experienced in building responsive, user-friendly websites with a solid foundation in problem-solving and project management. Actively seeking opportunities to apply and grow my skills in real-world projects.

EXPERIENCE

■ Web Developer (Freelance)

Independent Projects Aug 2023 –Present

- Designed and developed multiple professional websites as a freelancer, focusing on user experience, responsiveness, and clean design.
- Successfully delivered projects for:**
- Unique Holding Innovations <https://uniqueholdinginnovations.com/>
- Virtual Financial Services <https://virtual-fs.com/>
- Kairose Electronics <https://kairoselectronics.net/>
- Constellation Aviation <https://constellationair.com/>
- Worked directly with clients to understand business requirements and implement suitable web solutions.
- Ensured websites were optimized for performance and cross-device compatibility.

■ Team Member -PC Assembly & Setup

Independent Project Oct 2024 – Nov 2024

- Assembled and configured 30 personal computers with a team.
- Installed OS and essential software.
- Performed quality checks and resolved hardware/software issues.

■ Web Development Intern (Remote)

Cognifyz Technologies Jan 2025 – Feb 2025

- Assisted in designing and developing responsive web applications using front-end technologies.
- Collaborated with a team to improve website functionality and user experience.
- Worked on optimizing website performance and ensuring cross-browser compatibility.
- Gained hands-on experience with modern web development frameworks and best practices.
