Dear Hiring Manager,

I am writing to express my interest in the Software Engineering Internship position at your esteemed company. As a dedicated and responsible Software Engineering undergraduate with strong skills in frontend development, UI/UX design, and modern web technologies, I am confident in my ability to contribute effectively to your development team.

I have hands-on experience in building responsive websites, designing user-centric interfaces, and working with modern technologies such as HTML, CSS, JavaScript, React, and Tailwind CSS. My internship at Cognifyz Technologies and along with my experience as a freelance web developer, has provided me with practical exposure to real-world projects, collaborative teamwork, and industry-standard development workflows.

I am highly motivated to learn, grow, and contribute to innovative software solutions. Your company's commitment to excellence and modern engineering practices aligns perfectly with my career aspirations.

I would welcome the opportunity to discuss how my skills and passion for software engineering can add value to your team. Thank you for considering my application.

Sincerely,

Kalid Mishal
