

PROFILE INFO

Passionate Software Engineering undergraduate specializing in frontend and full-stack web development, proficient in React, Tailwind CSS, TypeScript, HTML, CSS, JavaScript, and PHP, with a foundational understanding of backend technologies including Node.js, PostgreSQL, and MySQL. With over 3+ years of freelancing experience (without formal industry experience), I have successfully designed and developed responsive, user-friendly websites, focusing on clean UI/UX and performance optimization. I possess strong problem-solving skills, attention to detail, and a good understanding of project management practices, and I am actively seeking opportunities to contribute to real-world projects, enhance my technical expertise, and grow as a professional in the software engineering field.

Esoft ID: COL00268979 | London Metropolitan ID: 24063727
